

## Marketing Communications Manager

**Keywords:** 3D Graphics, Branding, Technical Writer, Editor, Maya, 3DS Max, Blender, 3D Scanning, Social Media, LinkedIn, Vimeo

### Overview

Quidient seeks a talented graphics designer and communications manager to join its fast-growing team as its first in-house marcom/graphics professional. In this position, you will also be a proficient 3D modeler and innovative 2D/3D graphics designer. And you will be a clear, compelling technical and business copywriter. This is key position at Quidient. The ideal candidate will have a passion for technology and innovation.

### Requirements

- Bachelor's degree in Graphics or an equivalent field of study.
- Excellent written and verbal communication skills.
- 5+ years of experience working in a professional environment.
- Experience in content creation for blogs, social media postings, and/or press releases.
- Live near, or be willing to relocate to, our tech center in Columbia, MD.
- Be willing to wear multiple hats in a start-up environment with massive potential for growth.
- Expert level with Microsoft Office® (e.g., Word, PowerPoint, Publisher) and Adobe® software products (e.g., Photoshop).
- Expert with one or more digital content creation platforms like: Maya, 3DS Max, and Blender.
- Experience in creating graphics derived from 3D scanning and/or 3D reconstruction.

### Preferences

- Experience with photography and photo editing.
- Experience creating and driving social media campaigns, including LinkedIn.
- Familiarity or exposure to the tech industry.
- Experience in managing websites, online content, and social media.
- Proven ability to work independently and within a team environment.

### About Quidient

Quidient ([www.quidient.com](http://www.quidient.com)) is a 3D imaging technology company with a tech center located in Columbia, MD. We are scientists, engineers, and entrepreneurs who have built some of the most advanced 3D imaging systems in the world. Our mission is to become the world's preferred supplier of scene reconstruction and processing engines for digital devices like smartphones and AR glasses. Our Quidient Reality™ Engines record 3D geometry and 2D light flowing in generalized scenes and will enable thousands of applications that will transform the way we live and work. We are partnering with some of the top organizations on the planet. Our culture is open, honest, supportive, decentralized, multicultural, and high-performance.
